Council for Tobacco Research -
U.S.A., Inc.
900 Third Avenue
New York, NY 10022

Dear Sirs:

I have recently read the abstracts contained in the Council for Tobacco Research's most recent report and was very impressed by both the quality and quantity of research supported by the council. Our laboratory is currently investigating the effect of tobacco smoke condensate on intercellular communication. We feel this project is within the interest of the Tobacco Council and we would appreciate information concerning application materials for a research grant. Thank you very much for your time concerning this matter.

Sincerely,

David W. Bombick

David W. Bombick, Ph.D.
